Professional Summary

Full Stack Developer with nearly 5 years of experience building scalable, performant, and intelligent web applications. Skilled in ReactJS, Next.js, TypeScript, Redux, Web3, and AI integrations, with hands-on experience architecting configurable enterprise form-filling infrastructure, dashboard layouts, and ERP workflows. Adept at turning complex requirements into maintainable systems and taking ownership of full-feature delivery.

Technical Skills

- **Core Expertise:** ReactJS, Next.js, Redux, TypeScript, JavaScript, Node.js.
- **UI Libraries & CSS Frameworks:** Material UI, TailwindCSS, Bootstrap 5, Responsive Design.
- **Web3 & AI:** OpenAI API, Prompt Engineering, LLM Integration, WalletConnect, dApp Development.
- **Cloud & DevOps:** Docker, Nginx, GitHub Actions, AWS, Vercel, Azure.
- **Tools & Architecture:** Git/GitHub, Frappe ERP, ServiceNow, Monorepo Architecture, JSON-driven Configuration, Figma, Adobe XD.

Professional Experience

LYIK Technologies Private Limited

Enterprise Engineer | Bengaluru (On-Site) | *April 2023 – Present*

- Completed v2 of an enterprise form-filling application using Redux for complete state management; currently developing v3 as a more configurable platform.
- Architected a rule engine for field editability and visibility, a derive engine for data derivation and auto-filling, and an actions engine for scenario-based actions.
- Built the shared form layout and functionality as a separately maintained monorepo package, while the main application repository handles product-specific components.
- Developing JSON-driven dashboard layouts and a Frappe-based ERP system with configurable workflows.
- Set up Docker/Nginx containerization and GitHub Actions CI/CD; built a ServiceNow integration POC.
- Spearheaded client-facing platform development, delivering 30%+ efficiency gains and contributing directly to the company's first enterprise client acquisition.

Freelance - Web3 & AI dApps

Full Stack Consultant | Remote | *Ongoing*

- Built an AI-powered DeFi analytics platform with a conversational chat interface.
- Shipped a Web3 portfolio intelligence platform with WalletConnect integration.
- Engineered a prompt-engineering pipeline that produces structured JSON responses.

Content Enablers Inc.

Associate Web Developer | Bengaluru (Remote) | *March 2022 – March 2023*

- Contributed to a complete website revamp using ReactJS, Bootstrap 5, and Strapi CMS, enhancing responsiveness and maintainability.
- Integrated Google Analytics and Google Tag Manager to improve traffic tracking and SEO performance.
- Collaborated with stakeholders to identify improvements and ensure consistent branding and accessibility across the website.

Design Infuse

Frontend Developer | Mysuru (On-Site) | *September 2021 – February 2022*

- Designed and developed a responsive website for the Mysore Community Biosphere using HTML, CSS, JavaScript, Bootstrap, and WordPress.
- Translated design mockups into functional UI components while maintaining a focus on performance and usability.

Education

Vidyavardhaka College of Engineering

Bachelor of Engineering in Computer Science | Mysuru, Karnataka

- **GPA:** 8.50/10.00
- **Duration:** 2017 – 2021

Languages

- **English:** Fluent
- **Kannada:** Native
- **Hindi:** Proficient
